

Module level Master	Credit points 3	Language English	Return annual
Module designation			
Contract Law			
Course			
Contract Law			
Code	Subtitle		
Person responsible for the module	Prof. Dr.-Ing. Detlef Kuhl		
Lecturer	Jian Bani		
Workload	90 h (5 h online presentation, 45 h private study, 40 h homework)		
Relation to curriculum	Additive key skills, elective		
Type of teaching, contact hours	Online material, electronic material, virtual classroom, digital communication, skype		
Requirements according to examination regulations	None		
Recommended prerequisites None			
Module objective / Learning outcomes:			
A thoroughly elaborated contractual structure presents a key success factor for any national or international wind energy project. In this respect typically a wide range contractual relations and complex contractual risks have to thoroughly considered and addressed prior to implementing a project. This module aims to provide students with a thorough understanding of relevant key contractual relations and issues that need to be taken into consideration in the development of any wind energy project.			
Achieved Knowledge: Students know the key contractual relations and risks that need to be addressed in the development of any wind energy project.			
Achieved Skills: Students are able to identify and assess key contractual relations and issues to be addressed when developing a wind energy project in their respective professional position.
